

Medical education & planning with medical professionals

**Sips & Wishes is a party led by nurses.
You'll learn about medical interventions as
Amy and Erin tell stories. Feel empowered and comforted
by talking with your loved ones about your end-of-life wishes.**

One-of-a-kind interactive program

- explanation of medical treatments
- guidance as you examine your wishes
- what to consider when choosing your medical power of attorney
- answers to your questions as you complete our custom Preferences Packet

- Testimonial -

Sips & Wishes is bringing to the forefront a subject that 90% of people don't really wanna talk about but will have to eventually! Lots of great info and things to think about. Their presentation was spot on. Amy and Erin were very well equipped with background and experience. God bless 'em for educating on this touchy subject.

--Tony P
